

ENGINEERING CHEMISTRY

QUESTIONS

- ① Define Faraday's 1st Law of Electrolysis.
- ② What is Electrolysis? State and explain Faraday's laws of Electrolysis.
- ③ Define Faraday's second law of Electrolysis.
- ④ What is Electrolysis.
- ⑤ Write brief note on electroplating.
- ⑥ What is meant by electrochemical equivalent.
- ⑦ What do you mean by Electro-refining.
- ⑧ Write down the difference between electrolyte and non-electrolyte.
- ⑨ Name some industrial applications of electrolysis and explain about it.
- ⑩ Write short notes on electroplating and its uses in different fields.
